

# CODIS - NDIS Statistics

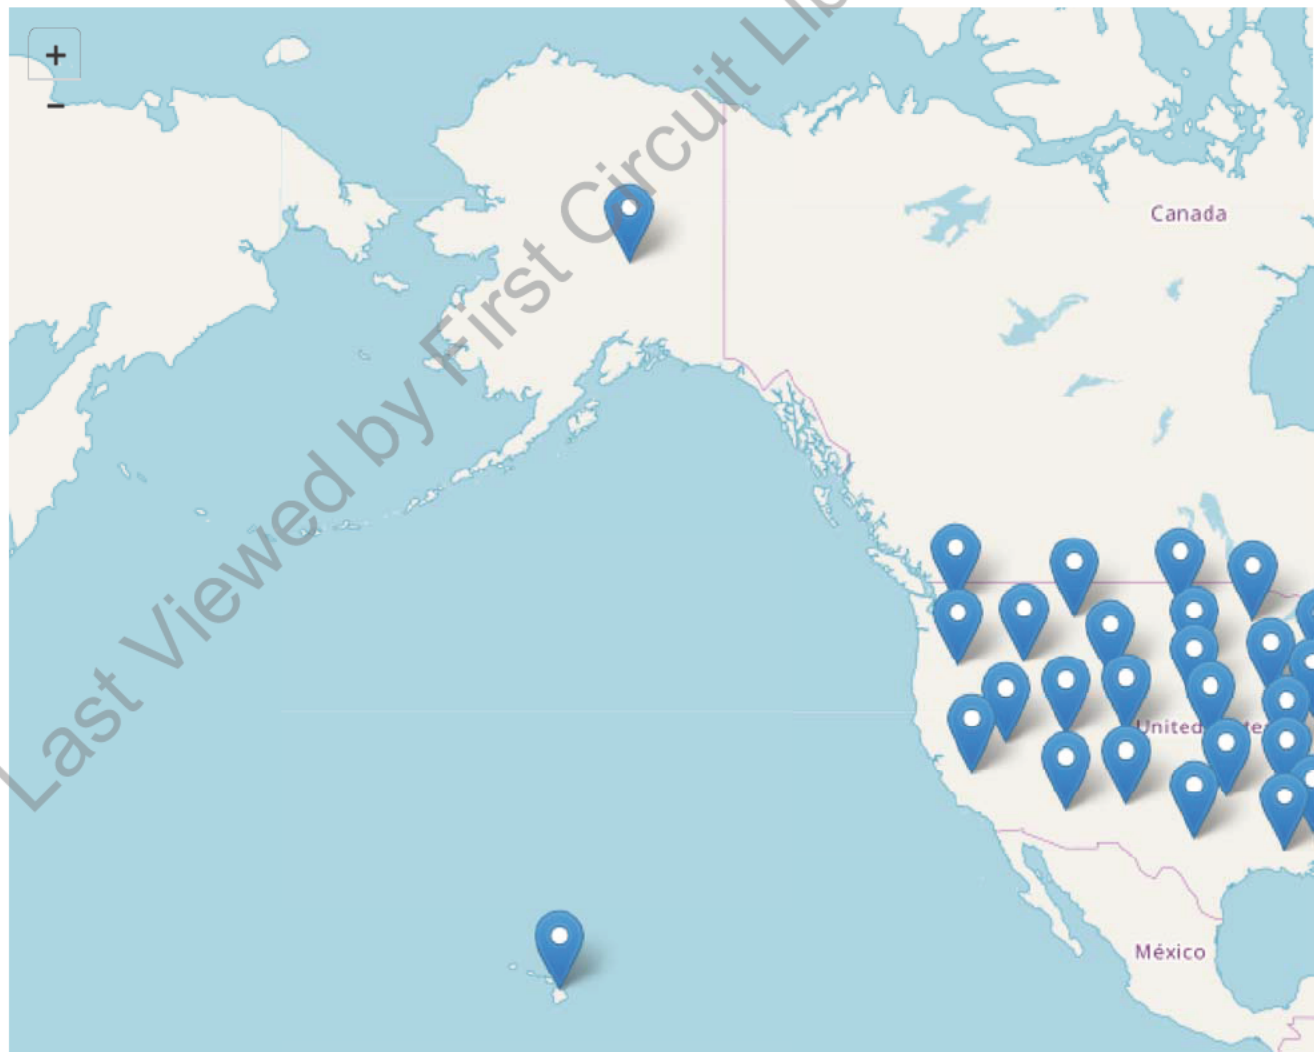

## Measuring Success

The National DNA Index (NDIS) contains over 13,859,128 offender<sup>1</sup> profiles, 3,603,637 arrestee profiles and 952,406 forensic profiles as of June 2019. Ultimately, the success of the CODIS program will be measured by the crimes it helps to solve. CODIS's primary metric, the "Investigation Aided," tracks the number of criminal investigations where CODIS has added value to the investigative process. As of June 2019, CODIS has produced over 472,078 hits assisting in more than 461,434 investigations.

<sup>1</sup>Offender profiles include Convicted Offender, Detainee, and Legal profiles at NDIS.

Note: Statistics are available on the map pins and in the tables below for all 50 states and Puerto Rico, as well as for the DC/FBI Lab, District of Columbia (DC), and U.S. Army. (Statistics for the latter three can be found on the Washington, D.C. map pin.)
